 Suppose you pick up gravel in your vehicle. We recommend the following: half a yard up to 2 yards in a pickup; 1.5 yards for a single-axle trailer; 3 yards for a double-axle trailer. Each yard weighs 2500-3000 pounds, or 1.5 tons. You are responsible for the material once it's in your vehicle.

Kootenai Sand & Gravel reserves the right to reschedule any deliveries or projects due to unforeseen circumstances and charge any customer for time and material for orders made to inaccessible areas or anything that may happen outside our control.
